EMBRYO CLINIC

Assisted
Reproduction

Welcome

EmbryoClinic is an awarded, state-of-the-art Assisted Reproduction Unit staffed by British personnel. Our UK training and over 20 years of experience in the field, guarantee highest standards of individualised care.

EmbryoClinic is ISO 9001:2008 certified (TÜV Rheinland)

Our Mission is to fulfill your hopes for a healthy baby.

Particular attention is paid to your individual needs, medical status, social background, religious beliefs and wellness.

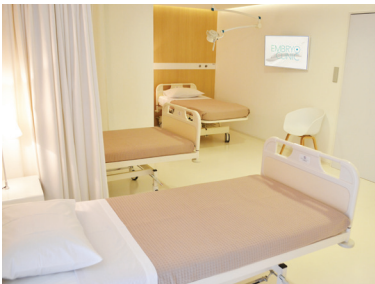

We look forward to welcoming you to Greece and guiding you through your journey to parenthood.

Dr Elias Tsakos, MD (Hons), FRCOG

Tailor - made services

- | | | | |
|---|--|----|--|
| 1 | In vitro fertilisation (IVF) | 9 | Embryo donation |
| 2 | Intra - cytoplasmic sperm injection (ICSI) | 10 | Testicular sperm extraction (TESE) |
| 3 | Assisted hatching (AH) | 11 | Testicular fine needle aspiration (FNA) |
| 4 | Blastocyst culture | 12 | 3D, 4D advanced ultrasound |
| 5 | Time - lapse embryo monitoring | 13 | Sperm DNA fragmentation index (DFI) |
| 6 | Vitrification and storage of oocytes and embryos | 14 | Hysteroscopy |
| 7 | Egg donation | 15 | Psychological support |
| 8 | Sperm donation | 16 | Holistic care (nutritionist, yoga, drama therapy, acupuncture) |

Our outstanding results are due to many factors, including:

7 day per week operation, additional procedures at no extra cost such as endometrial scratching, time lapse monitoring, assisted hatching and more...

Dave Gibbon

Embryoclinic's success is due to a well rounded and dedicated team who apply evidence based treatments in a state of the art facility.

Elias Tsakos

Home...away from home.
