About Us

Mediprima aims excellence in the medical and non-medical services it provides to international patients.

Our primary concern is our patients health and well-being before, during and after the treatment. We will use our experience and insight knowledge only to ensure the whole process is carried out smoothly under outstanding conditions and to the full satisfaction of our patients.

We make sure that our patients give their decisions not on misrepresentations but facts, leading to full control of the whole process.

In order to fulfill the high standards we have set for ourselves, our in-house medical doctor and patient coordinator will work together in evaluating unique needs and wants of the patient as to ensure a satisfying medical travel.

Services

Highly qualified doctors

State-of-the-art medical technology

Best practices and recognized treatments

Patient advocacy, safety and well-being

Value based services for affordable prices

Services based on transparency and trust

Treatments we offer

Hair transplant

Advanced FUE technology combined with PRP

Therapy: The permanent solution for hair loss. In each session, the maximum number of grafts are harvested to give you natural and healthy hair that continues to grow a lifetime. The procedure is painless under local anesthesia, the healing time is short and leaves no scar.

Intra-lasik

The most advanced technique to a life free of glasses: Intra-lasik

Intra-lasik is the most advanced method to treat farsightedness, nearsightedness, and astigmatism. It is the safest and most effective method which allows a faster healing process, reduces the risk of complication significantly, and delivers outstanding results. The healing time is fast and you can go back to your daily life only after a day after the surgery.

Pain Treatment

Non-surgical treatments for a pain-free life!

Chronic pain can be debilitating. If the source of your pain can't be treated, or isn't known, our pain medicine specialists can control and manage the symptoms. From back pain to post-surgical pain, many kinds of pain can be treated with non-surgical techniques.

Treatments we offer

Plastic Surgery

Your journey to beauty and glamour

Whether it is a facelift or a liposuction, plastic surgery has one main goal; to make you feel better about yourself. In the hands of a qualified surgeon, it can enhance your look and restore your self-esteem. A successful plastic surgery has two essentials: a qualified and experienced doctor and state-of-the-art equipment. We can offer you both, beauty is within reach.

Dental Treatments

Dental care that will leave you smiling

You can combine your dental treatments with a relaxing holiday. Only the leading dentistry products and material are used for guaranteed results. You can also choose to have dental under sedation. Sinus Lifting and Bone Augmentation & Implants & Crowns & Veneers & Canal Treatments surgeries
