

Kartik Hariharan

Consultant Orthopaedic Surgeon,
Foot and Ankle Specialist
Newport

Mr Kartik Hariharan is an internationally recognised foot and ankle specialist based in Cardiff and Newport offering the latest treatments and surgical techniques for foot and ankle conditions, including sports injuries, bunions, arthritis, foot and toe deformities, diabetic foot problems and heel pain.

Mr Hariharan undertook his undergraduate medical training at Madras Medical College and his orthopaedic training in Wales. He then completed an observer fellowship in foot and ankle surgery, visiting many parts of the United States.

He is the honorary foot and ankle surgeon for the Newport Gwent Dragons and also consults/operates on professionals in rugby, football, cricket, athletics, racket sports, and professional dancers from many parts of the country. He is the honorary medical director for Newport County Football Club and the Newport Cricket Club.

Hari been a consultant since 1994 and is based at the Royal Gwent Hospital Newport South Wales, a sub regional specialist Centre, and has recently established the Foot and Ankle Centre at the state-of-the-art Ysbyty Ystrad Fawr Hospital with his colleagues. This unit enjoys easy road access, excellent facilities and offers cutting edge foot and ankle technology to complement an exciting team offering foot and ankle surgery to the entire county.

Hari's private patients are seen and operated on at St Joseph's Private Hospital in Newport. He also has private clinics at the Cyncoed Consulting Rooms and operates at the Spire Hospital in Cardiff.

Hari is a past president of the British Orthopaedic Foot and Ankle Society (BOFAS) one of the largest orthopaedic subspecialist societies representing foot and ankle surgeons in the entire country. He is a member of the Wales Orthopaedic Surgical training programme and a clinical teacher at The University of Wales, College of Medicine. He is a visiting lecturer at Glasgow University and is a national teacher for the British Orthopaedic Foot and Ankle Society. He is also a visiting member of faculty for the University of Dundee on their Mch (Orth) programme. He has been a specialist adviser for MTP joint replacement with The National Institute for Clinical Excellence.
