

Bruce Richard

Consultant Plastic Surgeon

West Midlands

Mr Bruce Richard is a highly experienced general plastic and reconstructive surgeon at Birmingham Children's Hospital and University Hospital Birmingham NHS Trust, Queen Elizabeth. With a special interest in facial surgery, he offers facial rejuvenation, rhinoplasty, prominent ear correction, body contouring and correction for foot drop as a result of nerve damage.

Mr Richard's NHS work as Consultant Plastic Surgeon at Birmingham Children's Hospital and University Hospital Birmingham NHS Trust includes the treatment of children and adults with facial deformities and he is actively involved in research into the causes and treatment of cleft palate and into the development of techniques for facial nerve reconstruction. He also carries out muscle transplants for re-animating the face to create a smile after facial nerve paralysis.

Mr Richard is a full member of the British Association of Plastic, Reconstructive and Aesthetic Surgeons. He performs in the region of 125 facial cosmetic procedures a year.

Mr Richard qualified in 1980 from St Mary's Hospital Medical School, London and then completed six years of general and plastic surgery training. Mr Richard has a commitment to improving health in less developed countries and spent nine years in Nepal setting up a department of plastic and reconstructive surgery for the Government of Nepal.

On returning to the UK he completed a further three years of higher plastic surgery training, passed the Intercollegiate College Exam in Plastic Surgery and gained a Master of Surgery degree for his research thesis on the facial nerve. He now visits Nepal regularly in his role as lead educator for the postgraduate plastic surgery programme at Kathmandu University.
