Mr Jeremy Ockrim is a Consultant Urological Surgeon in Female and Reconstructive surgery based in London. He specialises in the treatment of bladder dysfunction, as well as male and female incontinence.

Mr Jeremy Ockrim MD BSc (Hons) FRCS (Urol) is Honorary Senior Lecturer at University College London and Consultant Urological Surgeon in Female and Reconstructive surgery.

He specialises in treatment of colposuspension,TVT/TOT, male slings, artificial sphincter replacement, urinary fistulae and diverticula surgery, prolapse repair, bladder augmentation, bladder replacement and both continent and incontinent urinary diversion. He has particular interest in managing bladder overactivity and pain syndromes.

Jeremy Ockrim trained in Glasgow before moving to Imperial College, London to complete his postgraduate thesis in 1999. He has an Honours Degree in Immunology and his MD thesis is based on the utility of oestrogens in prostate cancer. His clinical fellowship was undertaken at the Royal Melbourne Hospital, Australia.

Mr Ockrim trained in Female and Reconstructive Urology at the Institute of Urology, University College Hospital, and was appointed to this substantive consultant post in November 2008. The Institute of Urology offers tertiary expertise in Male and Female Reconstructive Urology to Urologists and Urogynaecologists nationwide. He continues his academic and teaching links at Imperial College and University College London, and has written extensively on lower urinary tract dysfunction, urodynamics, detrusor overactivity, fistulae, diverticula and tape surgery.
