Mohsin Ali is a highly experienced dermatologist and skin cancer specialist based in Buckinghamshire. He works with a skilled team of nurses and technicians to provide expert skin cancer screening, diagnosis and state-of-the-art treatment options, including Mohs micrographic surgery. He also provides scar and cosmetic surgery, as well as a comprehensive range of general dermatology services.

Dr Mohsin Ali, one of the country's most experienced Mohs surgeons and cancer specialists, is Consultant Dermatologic Surgeon and Consultant Dermatologist at Buckinghamshire Hospitals NHS Trust. Specialising in Mohs micrographic surgery, skin cancers, dermatological surgery, general dermatology and cosmetic procedures, his private practice, Chiltern Skin Clinic is based at Amersham Hospital, BMI The Chiltern Hospital in Great Missenden and BMI Shelburne Hospital in High Wycombe.

Situated in South Buckinghamshire, Chiltern Skin Clinic has a group of highly trained nurses and consultants that offer the best possible care. Patient's time at the clinic and after care is their main priority, with team members dedicated to patients throughout the entire process. The clinic is very highly rated amongst their clients due to their strong ethos to provide a friendly service.

Dr Ali's team are leaders in skin cancer screening, diagnosis and treatment. They also provide scar management, cosmetic surgery and a wide range of general dermatology services. These include full skin examinations, lumps and bumps, rashes, acne and other cosmetic concerns especially on the face. The Chiltern Skin Clinic also exceeds international standards in terms of care and quality.
