Fees

Initial Consultation **£250**

Follow-up Consultation **£180**

Mr Chetan Bhan is a Harley Street Consultant Colorectal Surgeon specialising in minimally invasive surgery and single incision laparoscopic surgery (SILS). A member of GI Doctors, a multidisciplinary team of leading London specialists, he offers expert treatment for conditions such as colorectal cancer, inflammatory bowel disease (Crohn's disease and ulcerative colitis), diverticulitis, pelvic floor disorders, all abdominal wall hernias and gallstones.

Mr Chetan Bhan is a Consultant General and Colorectal Surgeon at the Whittington Hospital in London, where he is lead for colorectal cancer. He is also a board member of the UCLH Colorectal Cancer Collaborative. He provides private treatment for colorectal conditions, hernias and gallstones at leading private clinics in the Harley Street Medical District and North London.

Mr Bhan qualified from the United Medical and Dental Schools of Guy's and St Thomas', London in 1998, going on to undertake his surgical training in hospitals in London and the South East. As part of his surgical training, he spent two years researching lower gastrointestinal functional disorders, particularly pelvic floor disorders, at The Royal London Hospital. He also trained in advanced colorectal surgery, including complex inflammatory bowel disease, perineal reconstruction and intestinal failure.

Mr Bhan completed his surgical training in Sydney, Australia, where he undertook a fellowship in advanced laparoscopic techniques in colorectal surgery, in particular, Single Incision Laparoscopic Surgery (SILS).

Mr Bhan was appointed as a Consultant Colorectal Surgeon in 2012. In his current role at the Whittington Hospital, he is lead for colorectal cancer and has developed the SILS colorectal service. He is also the Training Programme Director for surgical training in North, Central and East London, as well as Essex.

Mr Bhan is a member of GI Doctors, a team of leading London specialists in gastroenterology, upper GI surgery and lower GI surgery. Combined, their unique practice allows them to offer treatment for all disorders affecting the gastrointestinal tract, while individually they apply their bespoke experience to provide high quality, evidence-based care to meet the needs of every patient.
