Harsha Bilolikar is Consultant Paediatrician and Clinical Director at Kettering General Hospital with a special interest in allergy and respiratory conditions. He provides private investigation and treatment for a range of conditions affecting children, including eczema, asthma and hayfever, at Woodland Hospital - Ramsay Health Care UK in Kettering.

Dr Harsha Bilolikar is a Consultant Paediatrician who undertook his undergraduate medical training (MBBS) in Pune, India. He completed specialist training in Pune (MD Paediatrics) and subsequently worked as a Lecturer in Paediatrics at B J Medical College, Pune.

On moving to the UK, he did further post-graduate training in paediatrics and neonatology leading to MRCPCH and CCST (completion of specialist training). Higher specialist training during this time was at a number of hospitals in London: Chelsea & Westminster Hospital, Royal Brompton Hospital and St Mary's. He also studied for an MSc from University College, London.

He has been a Consultant Paediatrician since 2001, and he developed a paediatric allergy and asthma service from scratch at Kettering General Hospital in Northamptonshire. He undertook further training in allergy at the University of Southampton doing a postgraduate course in allergy while working as a Consultant Paediatrician.

Currently, he is Consultant Paediatrician and Clinical Director at Kettering General Hospital with special interest in allergy and respiratory conditions. He is one of the consultants providing neonatal care along with general paediatrics looking after a wide range of medical conditions. He is lead for tuberculosis for children in this area and also provides endocrine and nephrology service working with specialists in this area.

Dr Bilolikar provides assessment, investigations, diagnosis, treatment and follow-up for infants and children of all ages (0-19) for a range of conditions. Skin Prick and other Allergy tests and treatments are provided. When indicated other specialist investigations such as EEG, MRI, CT scans, echocardiography, ECG, endoscopies and biopsies will be arranged and where indicated further subspecialist referral arranged
