Dr Nick Plowman is Senior Clinical Oncologist to St Bartholomew's Hospital and The Hospital for Sick Children Great Ormond Street. He also undertakes visiting duties at St Mark's Hospital, Harrow, and Moorfields Eye Hospital. London. Dr Plowman is an expert on the use of radiation therapy and chemotherapy for the treatment of cancer.

Dr Plowman graduated from Guy's Hospital Medical School in 1974, having previously gained First Class Honours in both the Medical Sciences Tripos and the Natural Sciences Tripos at Cambridge University. He then completed his thesis at Cambridge University before joining St Bartholomew's Hospital, where he has been Head of Department since 1989.

Nick Plowman is a Harley Street based expert on the use of radiation therapy and chemotherapy for the treatment of cancer, with a special interest in improving cure rates in cancer, whilst reducing the side effects of therapy.

Dr Plowman's clinical interests include the diagnosis and treatment of breast cancer, brain tumours, endocrine cancer, urological cancer; cancers in children & young persons (chemotherapy & radiotherapy) and the use of stereotactic radiotherapy (CyberKnife And GammaKnife).

Dr Plowman's special interests are directed towards improving cure rates in cancer, whilst reducing the side effects of therapy. He is an expert on both radiation therapy and chemotherapy.

In medical oncology, his main contribution has been the demonstration of the importance of adrenal sex steroid production in both breast and prostate cancer and he pioneered therapies aimed at interrupting these pathways in both diseases that have now become standard treatment across the world.
