### Fees

Initial Consultation **£200**

Follow-up Consultation **£125**

Mr Shilpith Shetty is a Fellowship-trained orthopaedic surgeon specialising in hip, knee and sports injury surgery. With a private practice covering Winchester, Southampton, Basingstoke and the Wessex region, he offers a comprehensive range of procedures for the hip and knee, including minimally invasive hip replacement, hip resurfacing, total and partial knee replacement, ACL reconstruction and knee cartilage surgery.

Mr Shil Shetty graduated as a doctor in 1993. He trained in Orthopaedics initially in the Liverpool Rotation, gaining his MCh (Orth) degree from the University of Liverpool, before moving to the Royal London Hospital for more specialised training in trauma management and lower limb surgery. He subsequently undertook a Fellowship in Lower Limb Reconstruction and Arthroplasty at the Royal National Orthopaedic Hospital, Stanmore, an internationally renowned tertiary referral hospital. He completed his training with a clinical fellowship at another specialist centre, the Royal Orthopaedic Hospital Birmingham, where he received training in hip resurfacing (Birmingham), hip arthroplasty and revision hip and knee surgery.

Mr Shetty has been a full time Consultant in Trauma & Orthopaedics at the Royal Hampshire County Hospital in Winchester since 2006. A recognised expert in hip and knee surgery, including robotic hip and knee surgery, he has recently been awarded the title of Assistant Professor in Surgery from St George's University Medical School.

Mr Shetty plays an active role in the teaching and training of orthopaedic surgeons and has been the recipient of several NHS Clinical Excellence Awards.

Mr Shetty provides private treatment for hip and knee problems such as arthritis and sports injuries at BMI Sarum Hospital in Winchester, Wessex Nuffield Hospital in Eastleigh and Candover Clinic in Basingstoke. With a specialist interest in enhanced recovery, he uses the latest minimally invasive techniques wherever possible and is experienced in treating hip and knee arthritis in younger adult patients.
