#### Fees

New consultation £250

Follow up consultation £200

A leading Consultant Urological Surgeon based in North Wales and Chester (Cheshire), Mr Iqbal Shergill treats diseases of the urinary tract, including those of the kidney, ureter, bladder and prostate. In addition, he also treats diseases of the penis, urethra, scrotum and testicles.

Mr Shergill treats all diseases of the urinary tract, including those of the kidney, ureter, bladder and prostate. In addition, he also treats diseases of the penis, urethra, scrotum and testicles. This also includes men's health and sexual problems, such as erectile dysfunction (impotence).

In addition, as urology problems can also affect females, of all ages, Mr Shergill is available for help and advice on these issues and all other aspects of urology.

Mr Shergill enjoys working as part of a multidisciplinary team (MDT) to provide expert assessment, diagnosis and treatment for a comprehensive range of urological conditions, including haematuria, kidney stones, testicular pain and stress incontinence. He and his team at the Spire Yale Hospital are the first clinical team in Wales to offer HIFU (High Intensity Focused Ultrasound), a minimally invasive new radiotherapy treatment for localised prostate cancer.

Mr Shergill has a proven track record in academic publications of peer reviewed clinical and basic science papers, teaching textbooks and several book chapters, as well as many podium and poster presentations at national and international meetings. He is currently the principal investigator in several national and international multi-centre clinical trials in urology.
